Short Essay Questions (use additional sheet of paper if necessary):

1. In 300 words or less, please tell us why you are the BEST candidate to fill the vacancy on the Maricopa City Council.

2. In 300 words or less, please tell us what attributes, qualities, special skills, talents, awards, knowledge, you would offer to further enhance and diversify this city council.

3. In 300 words or less, please discuss the three (3) most important issues you see facing the City of Maricopa today.

4. In 300 words or less, please discuss what it means to you to be good policy maker and serve for the common good.

Please Attach:

1. Current Resume (Required)
2. Letters of Recommendation or Endorsement (Optional)
 - Should include:
 - o How long the endorsers has known the applicant
 - o Why the applicant meets the ideal candidate profile
 - o Any other pertinent information the Council might need to consider the applicant

Q: In 300 words or less, please tell us why you are the BEST candidate to fill the vacancy on the Maricopa City Council.

A: I bring a diverse set of skills which include construction, construction management, technical, technical management (as it relates to the semiconductor industry) amongst other skills that could potentially be useful in a city council role. I also have about ~5 years of experience working with the city of Maricopa staff for my own construction projects. I can offer insight to as to where the various administrative process are robust and where there could be some process improvements. I would like to make it my focus to streamline the building process within the city of Maricopa, including the application process.

Q: In 300 words or less, please tell us what attributes, qualities, special skills, talents, awards, knowledge, you would offer to further enhance and diversify this city council.

A: I have worked for the same employer for >22 years, so I am consistent. I have a good amount of Patience and usually know where to draw the line. When it comes to construction, I am a jack of all trades and a master of excavation (-: I have a good amount of project management experience and have managed a verity of job roles (engineers, technicians, and construction professionals)

Q: In 300 words or less, please discuss the three (3) most important issues you see facing the City of Maricopa today.

- 1) Construction
- 2) Construction
- 3) Construction

Road construction: SR347 improvement projects top my list, also the East/West corridor is right up there too. I would like to see the focus remain on getting folks in and out of the city, safely and efficiently.

Commercial building/industrial construction: As a city we need to find a way to get more industry/jobs that pay a competitive, livable wage. Maricopa is uniquely positioned with 2 interstates in close proximity as well as a railway running thru the city. How can we leverage our geographic location? East/West corridor and I11 will help. Perhaps a location to access the railway? This could encourage additional industrial activities.

Residential construction: With TWO new semiconductor factories being built at the Intel Ocotillo campus, there will be thousands of new employees looking for housing. As the hiring process is underway, perhaps some of these new employees are calling the city of Maricopa home. As the city has done an excellent job historically with subdivisions, it is important to continue with crisp execution.

Q: In 300 words or less, please discuss what it means to you to be good policy maker and serve for the common good.

A: A good policy maker always has the interest of the general public in mind. Someone that can effectively articulate the why and how decisions are/were made.

CHAD MOLYNEAUX

EMPLOYMENT HISTORY:

2019- present Intel Corporation, Chandler, AZ
Metals shift GL
Jan 21

- Responsible for all metals tool sets during start-up. Safety/Quality
- Ensured MT's were properly trained. Coordinated training
- Coordinated/communicated equipment down time with stake holders
- Responsible for UTP/tool availability
- Removed roadblocks to ensure work is completed safely/timely

July 2010- 2019 Intel Corporation, Chandler, AZ
Electroplating Technician

- NetOps owner: Installed and maintain NetOps for all EPN/BMU tools
- AutoProc owner: Set-up and maintain Auto Proc; VF copied configs
- AutoMon/PPQ owner: Configured and maintain AutoMon/PPQ; VF copied configs
- EPN Auto Prime: Constructed and installed units for EPN tools
- L3 certified on EPN/BMU tools
- Lead effort to reduce chemical reagent contamination for the BMU tools
Implemented solution: Individual vent lines for each reagent
- Peer trainer: Trained many fellow MTs and Engineers

July 2006- July 2010 Intel/Micron JV (IM Flash Technology), Lehi, UT
Wet Process Lead Shift Engineer II

Assigned to factory start-up of IMFT in June of 2006 as a Technician (Working for Intel)

- Installed Chemical delivery systems
- L2/3 Certified on 9 tool sets (DNSFC3100, DNS SU, DNS SS, SemiTool Raider, SemiTool Storm, Axcelis RDS, Axcelis RPS, Sosul Bevel Etcher, and TEL Wet Bench
- After the factory was fully ramped, took over as Lead Shift Engineer II (rotating shift work)
- Fully ERT Certified

- Scrap coordinator. Reduced the number of scrapped wafers to 1/6 of historical levels (Wet Process department)
- Managed 102 tools (10 separate tool types), 2 Engineers and 6 technicians

April 2000-July 2006 Intel Corporation, Hillsboro, Oregon
 Portland Technology Development
 Electroplating Technician

6 years of Copper Electroplating experience, 5 years working in a 300mm factory

- Novellus Sabre- Electroplater 300mm/200mm
- ECI- Chemical analyzer
- AMAT iECP- Electroplater 300mm
- Polyflow- Chemical/Equipment handling
- Ebara

Teamwork/Accomplishments

- Leading team member during 2 factory start-ups
- Design and implementation of an Anode Sink
- Installation of Nikon optical-stations
- Demo of TWO 300mm electroplater toolsets
- Chair of the 300mm Sabre working group
- Electroplating rep for the shift safety team
- Member of the Technician hiring team
- Certified peer trainer

May 1999-April 2000 Valley Asphalt, Spanish Fork, Utah
 Engineering Assistant

Responsible for bidding on small asphalt construction projects, monitoring the construction crew's progress of them and ensuring that the customer was satisfied. Surveyed all types of areas in the preparation of asphalt to ensure proper drainage when complete.

January 1999-May 1999 Utah Valley State College, Orem, Utah
